

Make a Worm from Pompoms? It's easy!

Take from PepMelon Jumbo Box:

- 6 pompoms
- 2 wiggly eyes
- 1 chenille stem

For this character, you don't need to glue the pompoms. Simply poke the chenille through one of the pompoms, then poke it through several more pompoms. When you reach the end of the chenille stem, just twist the rest of the chenille stem at the last pompom, to make the funny nose-mouth part of the worm. Finally, glue 2 wiggly eyes above this chenille nose.

Techniques:

Have fun!
