

Craft Foam Birds

Cut the birds out of paper (2. page) first, then out of craft foam. Cut out their circular abdomen shapes and the triangular beaks, then stick the eyes on the bird. Decorate its body with a flower deco textile or any deco shape. Push the chenille stems through the craft foam and twist the ends together. For the feet, make toe shapes as shown in the pictures. Have fun!

Take from the PepMelon Jumbo Box:

- 2-2 craft foams (matching colours)
- 2-2 moving eyes
- 2-3 deco shapes, flowers to put on the stomach
- 1-2 chenille stems the same colour as the craft foams (1 for a small foot, 2 for long legs)

Techniques:

Birds
