

Vampire bracelet, Halloween DIY for kids

Cut out the shapes, stick the head and the bow tie on the base shape, the hair and the two eyes as well as the vampire teeth on the head shape.

Cut a stripe from the craft foam, stick the vampire on it. Cut one side narrower at the end and make a notch at the other end. So you can pull the narrower over the other and it will stay on the kids' arms.

Take from the PepMelon Jumbo Box:

- 2 wiggle eyes
- 3 craft foams (red, green, purple)

Techniques:

DIY template on the second page!

Have fun!
