

Cactus pencils

Cactus pencils to make learning more interesting! Use a larger green pompom, glue on it 1-2 small green and 1-1 small pink pompoms. Or simply twist up two green chenille stems at the end of the pencil and fold the cactus shape at the end. It is also good that the child should not chew the end of the pencil.

Have fun!

Take from PepMelon Jumbo Box:

- a 3 cm green pompom, and 2-2 of 1 cm pompoms pink and green
- 2 green chenille stems

Techniques:
