

Heart Fish Upcycling DIY for kids

Use the old magazines! Cut the hearts out of paper (body and fins), and then the small hearts of purple and pink craft foams. Glue them to each other, as you can see in the picture, and don't forget the wiggly eyes! Choose a heart-shaped deco confetti for the mouth! The easiest way to cut a heart shape is from a folded paper / craft foam. So the two sides of the heart will be the same.

Take from PepMelon Jumbo Box:

- 4 pcs of heart-shaped deco confetti
- 4-8 pcs of wiggly eyes
- 2 pcs of craft foams (pink and purple)

Easy and funny DIY not just at Valentine's Day.
