

Chenille Butterfly for toddlers

Roll up the chenille wires to get wings, twist the two wings together. Repeat from another color, even using multiple chenille stems. With a third-color pipe cleaner, wrap this 2 wing pair, twist it, and end up with a small circle at both ends, these will be the eyes. Some pompoms give the butterfly's body. Simple, fast and fun.

Take from the PepMelon Jumbo Box:

- 4 craft foam (green)
- 3 pompoms

Techniques:
