

Pompom-Flower Caterpillar

Poke the pipe cleaners through the pompoms, so there should be 2-3 flowers between each pompom. Repeat it with a half chenille stem. At the two ends, fold the wire back, this will be the hands. Wrap up this chenille over the other one under the head, between the flowers. Glue 2 small moving eyes on the head pompom. Hang up it in the window, it's a nice kids room decor in the spring.

Take from PepMelon Jumbo Box:

- a handful of pompoms
- a handful of fabric flowers
- 2 chenille stems
